1. Introduction

Under data protection law, individuals have a right to be informed about how our Trust uses any personal data that we hold about them. We comply with this right by providing 'privacy notices' (sometimes called 'fair processing notices') to individuals where we are processing their personal data.

This privacy notice explains how we collect, store and use personal data about **pupils at St Mary's school**.

This privacy notice applies while we believe your child is not capable of understanding and exercising their own data protection rights.

Once your child is able to understand their rights over their own data (generally considered to be age 12, but this has to be considered on a case-by-case basis), you should instead refer to our privacy notice for pupils to see what rights they have over their own personal data. St Mary's Privacy Notice can be found on the policies and Safeguarding page of the school website.

National Pupil Database

We are required to provide information about pupils to the Department for Education as part of statutory data collections such as the school census.

Some of this information is then stored in the [National Pupil Database](#) (NPD), which is owned and managed by the Department and provides evidence on school performance to inform research.

The database is held electronically so it can easily be turned into statistics. The information is securely collected from a range of sources including schools, local authorities and exam boards.

The Department for Education may share information from the NPD with third parties, such as other organisations which promote children's education or wellbeing in England. These third parties must agree to strict terms and conditions about how they will use the data.

For more information, see the Department's webpage on [how it collects and shares research data](#).

You can also [contact the Department for Education](#) with any further questions about the NPD.

Connexions

We have to provide information about you to the Department for Education (a government department) as part of data collections such as the school census.

Once our pupils reach the age of 13, we also pass pupil information to our local authority (including Connexions) and / or provider of youth support services as they have responsibilities in relation to the education or training of 13-19 year olds under section 507B of the Education Act 1996.

This enables them to provide services as follows:

- youth support services
- careers advisers

The information shared is limited to the child's name, address and date of birth. However where a parent or guardian provides their consent, other information relevant to the provision of youth support services will be shared. This right is transferred to the child / pupil once they reach the age 16.

7.1 Transferring data internationally

We may share personal information about your child with the following international third parties outside of the European Economic Area, where different data protection legislation applies:

- › Other schools or educational establishments
- › App or cloud server providers

Where we transfer your child's personal data to a country or territory outside the European Economic Area, we will do so in accordance with data protection law.

In cases where we have to set up safeguarding arrangements to complete this transfer, you can get a copy of these arrangements by contacting us.

8. Your rights

8.1 How to access personal information that we hold about your child

You have a right to make a 'subject access request' to gain access to personal information that we hold about your child.

If you make a subject access request, and if we do hold information about your child, we will (subject to any exemptions that apply):

- › Give you a description of it

- Tell you why we are holding and processing it, and how long we will keep it for
- Explain where we got it from, if not from you
- Tell you who it has been, or will be, shared with
- Let you know whether any automated decision-making is being applied to the data, and any consequences of this
- Give you a copy of the information in an intelligible form

You may also have the right for your child's personal information to be transmitted electronically to another organisation in certain circumstances.

If you would like to make a request, please contact us (see 'Contact us' below).

Once your child is able to understand their rights over their own data (generally considered to be age 12, but this has to be considered on a case-by-case basis), we will need to obtain consent from your child for you to make a subject access request on their behalf.

8.2 Your right to access your child's educational record

Parents, or those with parental responsibility, also have the right to access their child's educational record (which includes most information about a pupil). This right applies as long as the pupil is aged under 18.

There are certain circumstances in which this right can be denied, such as if releasing the information might cause serious harm to the physical or mental health of the pupil or another individual, or if it would mean releasing exam marks before they are officially announced.

To make a request, please contact Antoinette Bouwens (see under section 10 Contact us).

8.3 Your other rights regarding your child's data

Under data protection law, you have certain rights regarding how your child's personal data is used and kept safe. For example, you have the right to:

- Object to our use of your child's personal data
- Prevent your child's data being used to send direct marketing
- Object to and challenge the use of your child's personal data for decisions being taken by automated means (by a computer or machine, rather than by a person)
- In certain circumstances, have inaccurate personal data corrected
- In certain circumstances, have the personal data we hold about your child deleted or destroyed, or restrict its processing
- In certain circumstances, be notified of a data breach
- Make a complaint to the Information Commissioner's Office
- Claim compensation for damages caused by a breach of the data protection regulations

To exercise any of these rights, please contact us (see 'Contact us' below).

Once your child is able to understand their rights over their own data (generally considered to be age 12, but this has to be considered on a case-by-case basis), we will need to obtain consent from your child for you to make these requests on their behalf.

9. Complaints

We take any complaints about our collection and use of personal information very seriously.

If you think that our collection or use of personal information is unfair, misleading or inappropriate, or have any other concern about our data processing, please raise this with us in the first instance.
