

Phonics Long Term Plan

A guide as to when each phase is to be taught in Key Stage One. Lessons during each term reflect this structure.

This LTP is a guide as to when each phase will be taught in each year group and progression across the Key Stage. This will also depend on the outcome of initial assessments and assessments made after each phase has been taught.

2021 -22: Due to Lockdown measures and missed schooling over the last two years, Y1, Y2 and Y3 will need to review assessments from end of previous year group and revise certain phases. This may impact the sequence of teaching and they may recap a previous phase from the year before. It will also highlight children who need phonics intervention.
